

**We are
Founders, Investors
and Managers**

**We hold consulting mandates with major
industry players and engage in active investments
in growth ventures
– to integrate the best of both worlds –**

CBR combines strategic consulting with entrepreneurship. We are mainly active in innovation and transformation environments and support young companies as co-founders or through direct investments. In addition to consulting mandates with medium-sized companies and corporations, we also support our clients medium- to long-term as interim managers.

We believe in the combined value of consulting and entrepreneurship. We are striving to use the innovative power of organizations for the transformation of existing business areas or for the development of new business fields.

WE ARE SEARCHING SENIOR PROJECT MANAGERS FOR „CLIMATE-TECH & SUSTAINABILITY“

"ClimateTech & Sustainability" at CBR focuses on the topics of sustainability and energy transition in a truly globalized and interconnected world. We support companies in making their business models, products and services more sustainable and profitable at the same time.
